

## **Lightning Procedures (Atchison Sports Complex)**

In the event of lightning during any activity at the Atchison Sports Complex, the following plan will be followed.

1. If lightning is within 10 miles of the playing fields, the field supervisor will sound an air horn 3 times to let everyone know that play will be suspended for the next 30 minutes.
2. After 30 minutes, the field supervisor will make another decision based on the location of the lightning. If the lightning has moved outside of 10 miles the supervisor will sound the horn once to announce that play will resume.
3. If the lightning is still within 10 miles after 30 minutes, the supervisor will sound the horn 3 times to let everyone know that play has been suspended for the evening.

**In the case of severe weather, the field supervisor will open the AES gym as an emergency storm shelter.**

\*\*\*\* Field Supervisors will use the Weather Bug App to monitor any weather situation.
